

Year 5 Spring 1

Ancient Civilisations

Topic

In History, we'll find out:

About the characteristic features of the Roman Civilisation
About beliefs, ideas and attitudes held in Roman times
About the social, cultural, religious and ethnic diversity of the Roman Empire
How the history of the Romans affects us today

In ICT, we'll be finding out:

How to design, write and debug programmes
How to design a programme for a specific purpose

In Music, we will look at:

Musical expression and communication
Singing songs in parts and unison
Playing tuned and untuned instruments rhythmically as part of an ensemble
Composing musical pieces within a structure

In Art and design Technology we'll be:

Able to communicate through visual and tactile forms
Making judgements about works of art
Finding out how craftspeople and designers use materials, forms and techniques to express their idea

In English we will be:

- Reading and increasing our familiarity with myths, legends and traditional stories
- Reading, appreciating, learning and reciting poetry
- Writing descriptive imaginary settings and character studies for narrative writing in the style of a myth and legend
- Recounting special activities
- Develop spellings through investigating patterns

In Maths we will be:

- Using our knowledge and skills in developing strategies when working with fractions, decimals and percentages
- Problem solving and reasoning using all operations
- Understanding the equivalence of fractions, decimals and percentages

Inspiration

- Roman Day
